

William Hill

Global online betting and gaming company using the Alvaria Workforce™ Assessment Tool certified by Frost & Sullivan

The Organization

Founded in the UK in 1934, [William Hill](#) is a global online betting and gaming company. It is organized into four business segments: retail, online, U.S. existing, and U.S. expansion.

Today, the company has over 16,000 people worldwide. Its company's product and service portfolio comprises various activities such as gaming machines in licensed betting offices and online and telephone activities including sports betting, casino, poker, and other gaming products.

Motivation for Change

William Hill's customer base increased massively in line with the growth in the online gambling market/sector and as a result knew they needed to bring in additional tools such as workforce management (WFM) as their Customer Service agent population grew. Making sure they had the right agents at the right time with the right skills was key to ensuring their customers had a great experience whenever they had to reach out to customer services with a question.

William Hill adopted Alvaria's tool to help professionalize its WFM and drive greater buy-in for WFM investment across the company.

“It's not just the calculations and understanding the what. It's really about clarifying and visualizing the wow.”

– Head of Customer Service Systems Improvement

The Benefits

- Help professionalize William Hill's Customer Experience focus through sophisticated WFM
- Helps establish baseline statistics as well as scenario modeling for investment decisions
- Helped William Hill articulate business case for investment in workforce
- Helped compliment skills and experience with automated tools like the Alvaria Calculator
- Alvaria support in WFM education across William Hill divisions
- Creates shared language around the importance of CX and WFM across William Hill
- Alvaria serves as third-party which offers further validation on WFM optimization
- Supports William Hill in establishing strategic objectives and goals for specific investments
- Provides a check-in / validation tool across a quarter or year after implementing a specific initiative
