

Alvaria Motivate™

Pump Up Productivity and Motivate Agents in Your Contact Center

71% of all employees are not engaged while they're at work and the average call center has a 26% attrition rate. Alvaria Motivate users turn those numbers around with engaging contests, recognition and rewards. In short, it's the engagement solution that maximizes your ROI.

Alvaria Motivate offers solutions that are designed to increase productivity and reduce employee turnover across all generations – from Boomers and Millennials to the fast-growing Gen-Z workforce. Whether your employees are motivated most by incentives or recognition, competition or collaboration, we've got you covered. In short, Alvaria Motivate transforms daily routines into rewarding rivalries that give everyone a reason to do their best.

Automate, Scale and Fire Up Competition

The days of competition whiteboards and manual SPIFFS are over. Today, call centers need to drive performance immediately. With Alvaria Motivate software our clients use a list of competition mechanics that can be fired up in under a minute. Create a contest in only 5 fields. Launch head-to-head “duels” with ease. Even better, our Normalization Engine allows you to create equity between agents on dissimilar campaigns. Whether Agent vs. Agent, Team vs. Team or Center vs. Center, it is all managed efficiently through our Competition Engine.

Leverage Public Recognition with Leaderboards

Utilize Alvaria Motivate's public leaderboards to recognize your employee's achievements. This makes it easier for slower agents to see where their performance is falling short and who to ask for help. It also gives high-performing agents greater recognition from their teams.

Leverage Game Mechanics for Training Programs

Gamified learning management tools and an employee survey engine are fluidly integrated within the existing Alvaria Motivate solution. These integrations make training more engaging, which yields lower training costs and an increase in customer satisfaction. It also helps you better understand what rewards agents want and what support they need to stay engaged and meet goals.

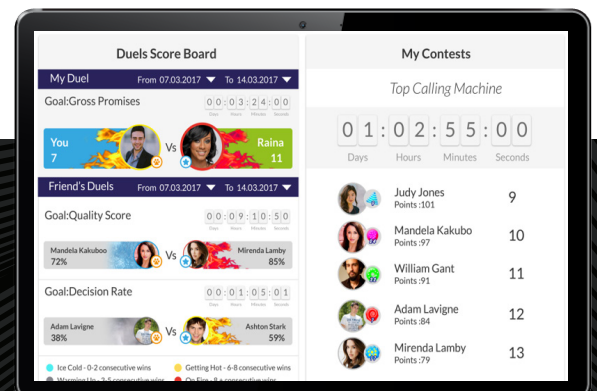

Third-Party Data Import with KPI Import Manager

With the Alvaria Motivate KPI Import Manager, organizations can map their own third-party data to the solution's KPIs- allowing you to take data from disparate sources and gamify them. This enables you to increase agent agility with competitions and set clear goals to drive your contact center behavior.

Unify Communication to Ignite Performance

Alvaria Motivate's clients have the ability to leverage peer-to-peer or supervisor-to-agent collaboration to fluidly share best practices among the employee community. Additionally, supervisors have access to utilize coaching software. It's integrated directly in the user interface and allows for immediate course correction. That way, the whole team succeeds.

Send Rewards Instantly with Digital Gift Cards

Want to reward your agents with ease? Leverage Alvaria Motivate's integration with the largest eGift Card provider in the United States. We give agents the ability to redeem their points for a reward of their choice. You'll never have to send someone to the store to get a stack of gift cards again. To add variety, utilize our Live Auction. Agents can bid on prizes in a virtual auction, creating more buzz and competition for key rewards.

Dynamically Align Agent Activity with Contact Center Goals

Focus agents on the outcomes that matter most to your call center. We make it easy to create and set goals from within your "sandbox." That way, as your organizational objectives change, your Agents will stay up-to-date and aligned with the latest goals each day.

Level Up the Status of High-Achievers

Making agents and supervisors feel important among their peers is a valuable motivator. Alvaria Motivate™ provides leveling to create status rankings among employees. These symbols of status follow them wherever they appear within the game.
